

# Notes for Scheduling Gliders and Instructor

- Use "member" as your login user. The password is the same as the one for the Members Only section. Get the password from a Board member or Webmaster if you don't know it.
- Put your full name at the top of the booking in the Brief Description field. Any other comments can go in the Full Description block.
- 2-seat gliders can only be booked in 1 hour blocks unless two club members are flying, then 2 consecutive hours can be booked.
- 1-seat gliders can be booked for 2 hour blocks or longer if going for a badge and get Board member approval.
- Be ready to fly at the beginning of your time and conclude your flight at the end if anybody is next in line.
- Private owners can make entries indicating that they want a tow for that day. The exact time will not be guaranteed.
- The FOO will have access to the schedule and will use it as a guide during the day as best as possible. Flexibility in the schedule can be made on the day of flight by coordinating with the FOO.
- We are all courteous club members. Please do not abuse that trust.
